## Bow Valley Annual Meeting Well Attended

The Annual Meeting of the M. D. Bow Valley convened in the Dining Room of the Memorial Hall at one o'clock on Saturday and was adjourned until two. At two o'clock, Mr. Phil Rogers, Returning Officer, called the meeting to order, and asked nominations for a chairman. Mr. N. Scheer was elected by acclamation. Mr. W. Thompson was elected Secretary by acclamation.

Following the reading of the minutes, a question was asked as to the success of the council in having their put in the penalties under the Noxious Weeds Acts. The meeting was informed by R. J. Milligan, District Agriculturist, that the teeth were already there and that no change was likely to be made.

Formation of an Agricultural Service Board was announced by Councilor J. M. Wheatley. This board will consist of two members of the Council, two members from among the farmers, the Sec. Treas. of the M. D., and the District Agriculturist. Members of the Council are to be J. Harwood and J. M. Wheatley, and farmer representatives, Harold Scheer and Doug Keer. They will be meeting sometime early in March, in the M. D. office, and these meetings will be public. The Board will have power to operate weedy land areas in order to control and to eliminate the problem. Powers may be extended after the Board begins to function successfully.

Mr. Wheatley then outlined the duties of the Board and pointed out what had been accomplished in Conrich Municipality and added that it was also necessary to keep in mind the ability of the ratepayers to meet their share of the cost of these services.

The Council's report, which is reprinted alongside, was read by Reeve J. Harwood, and questions were invited. Among the first questions asked was for a report on snow clearing. The Reeve pointed out that this operation was expensive, but that they were using the wrong equipment. New machinery which has been ordered by the council is expected to be much better in this regard. It possible a snow plow will be purchased next year and this should materially improve the situation. Councilor Wheatley asked for more co-operation from the farmers in weed-cutting along the road, in order to eliminate the problem of snowplowing. The ratepayers then asked for more support from the M. D. in elimination of grading piles of gravel and dirt to the road sides, and thus making weed-cutting very difficult.

Following this, a report on the dirt moving machinery of the municipality was asked for. A good deal of discussion arose out of the reading of the financial statement. Questions came from all corners. With reference to the Weed Inspector, the Reeve pointed out that the inspector is of no use, without co-operation from the farmer.

A good deal of discussion ensued over the cost of school rates. It was pointed out that in Bow Valley School Division, the municipality is paying 84% of the School rates, and that in

## COUNCIL'S REPORT

As you know, Messrs. John A. McArthur and James Harwood were elected by acclamation as Councilors for Division 1 and 2 of the Municipality. Mr. W. H. Hartell was later elected for Division No. 5 to fill the unexpired term of Mr. C. H. Cowell who resigned.

The following employees were continued in office: W. E. Thompson, Secretary-Treasurer, Miss G. Van Tighem, Assistant Secretary, Philip Sldam and E. S. Naylor, Weed Inspectors.

A new General Assessment was made in 1945 and Messrs. G. B. Field and E. Wager were employed to do the field work. While the field work has been completed we desire to reconcile the values with a neighboring district with a small portion of our boundary and assessment notices will not be mailed until this is done. With the creation of School Divisions the equalization of land values is very important, otherwise a municipal district may be called upon to pay more than its just share of school taxes. School requisitions are apportioned upon an assessment basis as also is the Social Service Tax Requisition.

The policy of allowing discounts for prepayment of taxes was continued and had the desired result of maintaining sufficient bank balances to meet all expenditures as they became due during the year.

The Municipal Mill rate was the same as in 1944 but there was an increase in school rates to meet the increased school requisitions.

Thirteen miles of road were gravelled and charged to the General Fund of the Municipality. Sixteen additional miles were gravelled and charged to respective Divisional Allocations. We earned \$5,000.00 Provincial Roadwork Grant and did work for farmers who paid for the gravelling of their own roads. The travelling was done by contract. Also twenty-five miles of road were elevated. We also stock

## NEW TOWN COUNCIL HOLD FIRST MEETING

First meeting of the new Council for the Town was held Monday night in the Council Chambers at the Town Hall. The new mayor, T. S. Hughes and Councilor G. E. Quirin were sworn in, and the meeting proceeded with business. Following the reading of the Financial statement for January a good deal of discussion as to the disposition of the School Tax followed, and the secretary was instructed to find out further particulars and carry the matter to the next meeting. Councilor Len Roberts was appointed deputy mayor for the ensuing three month period. Town Auditor for the next year will be L. M. Katterhagen

Friday night at the skating rink saw a huge crowd of fans enthusiastic over the carnival presented by the Junior Hockey Club. The weather was cold but not inclement, and what with frequent dashes to the club house to warm up, everyone was in good spirits. Starting the evening with a game of broomball, the two teams provided fun and laughs galore, with their antics as they tried to capture the ball.

The numerous races provided for the young skaters of the town were productive of a great deal of good competition, and feelings often ran high as favourites came in, or nearly did. Results of the races have been listed below.

One of the most attractive and enjoyable features of the evening was the large number of fancy skating demonstrations given by the visiting experts from Calgary from Drumheller. The Calgary group were under the direction of Mr. A. Cartwright and included the Misses Mary and Kathy Ryan and Joan Prince, while

## EARLY CHEADLE RESIDENT PASSES

Mr. Joseph Reid, late of the Cheadle area, passed away at his home in Strathmore Tuesday night. He had suffered a stroke last week, from which he did not recover, and had suffered considerably.

The late Mr. Reid was an early settler in the Cheadle area. He moved there from Boston in 1910 and farmed there for some years, before moving to Alberta, later. He never returned to the Cheadle district, and resided there from 1942 until October of 1944, when he moved to Strathmore, where he has since lived. Mr. Reid was born in Beaverville, New Brunswick, and was 73 years of age.

He is survived by his wife, Mabel and one son, Joseph, Jr., at present employed with the Atlas Lumber Company at Rocky Mountain House. Funeral services, to be held from the United Church, will be announced later.

## STRATHMORE FORMS TROOP OF BOY SCOUTS

Coincidental with the National Scout-Girl Guide Week being held this week, boys of Strathmore and vicinity Monday decided to form a troop of Scouts in Strathmore, the former troop having had to close down owing to pressure of extra work incurred by the leaders.

Meeting in the school on Monday afternoon, a large group of the youth of the town indicated their enthusiastic support of such a group, and following a brief introductory talk on the facilities offered, and the work they might be expected to accomplish by Chuck MacLean, the boys voted unanimously to form a troop. Then they decided that they would meet on Friday nights at 7:30.

Patrol Leaders were also elected, and successful candidates resulted in Gordon Pether, Douglas McKenzie and Bruce McKenzie being chosen as the boys' leaders. These three boys, together with the Troop Leader will undergo a month's intensive work before taking over their patrols, and will by that time be competent to instruct the other lads in their patrols.

A Group Committee was formed at a meeting held Tuesday night, with the election of R. J. Milligan as president, and S. H. Crowther as Sec. Treas. Adviseability of securing all the assistance possible in the running of the troop was pointed out, and C. A. MacLean was appointed Scoutmaster, with P. Wilkinson acting as Assistant Scoutmaster. The troop it was pointed out, will start in with a good deal of equipment carried over from the previous troop, and thus will have its initial moves made more easy.

## MEN'S CLUB HONOR LADIES

It was an interesting and instructive evening that was held on Monday February 19th, when the members of the Men's Club honored the Ladies at their regular monthly meeting held in the Memorial Room of the United Church.

At 6:30 members and guests numbering about 40, sat down to an excellent dinner efficiently served, by the Young People's Group. President Vernon Hanson Presided.

A short musical interlude of jolly sing-song and two exceptionally well rendered solos by Blaine Chapman, followed, with Mrs. Stanley Hunt acting as accompanist at the organ.

Rev. S. R. Hunt was then called on to introduce the guest speaker, Rev. J. W. Bainbridge, M. A., B. D., of High River and part time Chaplain of the Air Training School there.

In his forceful and educational address, Rev. Bainbridge brought to light the highly significant fact that great leaders of world affairs who although busy with the tremendous task of winning a victory over aggressor nations, build a permanent and lasting peace. A great religious Crusade of love and good will toward our fellow men and of one nation for another, also a more dispassionate of this world's goods, creating a richer, fuller life and way of living for every individual, is the only true foundation on which to build a permanent and lasting peace. An animated and seriously discussion ensued more than testifying to the interest shown in this earth-while and thought-provoking address.

The ladies thoroughly enjoyed the evening and are looking forward to an invitation in the very near future.

## Namaka Pioneer Passes

David Peebles, an early settler in the Namaka District, passed away in Calgary on Friday, February 15th, at the age of 76. He had been ill for a short time and was taken to hospital in Calgary for treatment, before he succumbed.

Coming to this country in 1916, the late Mr. Peebles settled in Namaka area, where he has farmed ever since. He was born in Tapperton, Fifehire, Scotland.

Surviving are his widow, Isabella of Namaka, one daughter, Mrs. J. S. Drummond of Namaka, and three grandchildren.

Services were held on Tuesday afternoon from Strathmore United Church, with Rev. S. R. Hunt officiating.

Interment followed in the Strathmore Cemetery. Pallbearers were Messrs. Van Verdeggen, Harold Scheer, George McLean, Jack Sharp, Bill Fawkes, and N. E. Scheer.

### NEW COUNCIL HOLDS FIRST MEETING

A reply from the Provincial government to the resolution passed by the Council about a month ago concerning the province bearing a greater share of relief and other financial problems was read. The province stated that they feel they are carrying their share at present and will continue to do so.

Matter of granting pension to an applicant approved by the province was deferred until more definite information could be found on whether or not he was a charge on the town.

Granting of Mother's Allowance applied for was approved. The province had already concurred in this matter.

An application for approval in establishing a new radio repair shop on the edge of town was passed on to the W. P. T. B. It was felt that a license is what is required, not the approval of the town.

Suggestion that a Board of Health be reformed was made and considered. Further action will be taken in this matter at the next meeting. This step followed considerable discussion as to ways and means of abating certain town nuisances in the sanitary field.

## WHY NOT MARGARINE?

With butter supplies inadequate, why continue the ban on oleomargarine, asks The Financial Post editorially. It states:

"During the war when imports of oleo raw materials from the Pacific were cut off there would have been little gain in resuming manufacture, but the situation has changed in the last six months. Ample raw materials should soon be available again. There seems no reason at all why Canadian consumers should be further deprived of a healthful food product that is available in almost every other country, including the United States and Great Britain.

"The ban, which was applied against the manufacture and sale of oleomargarine shortly after the end of the First Great War, is much more than an ordinary protective measure. It gives the butter producers of this country an absolute monopoly, and monopolies are hard to justify under any circumstances.

"Had butter producers kept the domestic market supplied at reasonable prices there might have been less reason for criticism but the domestic market has not been fully supplied and our relatively small exports to Britain are not a factor in this situation.

"Good Canadian butter, in contrast to that of poor quality, has nothing to fear from competition with margarine. When available and when they can afford it the average housewife will take good butter every time. But the present ban on margarine prevents mil-

lions of housewives from getting a product to supplement their inadequate butter ration and it is direct encouragement to the growth of inefficiency and low quality production in the dairy industry."

## Ice Carnival

(Continued from Page One)

the drumheller group consisted of J. Parsons under direction of Mr. Dutton. Their numbers including Solos, Tangos, Pairs, Fox Trots, Skips and Waltzes were highly enjoyed by all and showed consummate skill in their execution.

Entrants in the fancy costumes events provided much merriment for the spectators and much wrangling of brows for the judges, as the entrants were all very cleverly dressed, and competition was keen. Final awards went to Donna Anderson, Jean Koch, Eleanor Hildahl, Raymond Crollin and Norman Morton.

One of the high spots of the evening was the chuck wagon race, in which two teams contested supremacy on the ice. The Skunk Hollow outfit came in first with a time of 1:46, followed by the Bar X Wagon, time 1:46 and one quarter, both outfits trailing outsiders all over the ice. The Skunk Hollow boys gained the lead early in the race and were able to hold it all though once rounding a corner, the Bar X group narrowly missed overtaking them.

The tug-of-war on ice followed this event and proved a triumphal affair. Really, it was amazing to see the grip both teams had on the rope, if they were unable to gain one on the ice.

Announcement of the winner of the mural radio caused hated breath while everyone examined their tickets, until the news came out that Leona Groux, holding ticket No. 1587 was the fortunate winner.

A royal flourish of trumpets then proclaimed the arrival of the Queen of the Carnival, and with stately tread Queen Mavis Mackie the winner of the contest, attended by her ladies in waiting, made the trip to the throne, where she was crowned Queen by Lady Phyllis Hartall. On behalf of the Hockey Club, J. Gannon then read the coronation address, proclaiming the loyalty of her citizens, and then presented Mavis with an intimate address. He presented also gifts of the Junior Hockey Club to the Ladies-in-waiting. Following the ceremony, the Lions who had sponsored the Queen Mavis, presented her with a lovely handbag.

Prize winners of the skating events were as follows:

# Water Works Wonders IN ALBERTA

IRRIGATION  
AREAS  
PROPOSED

CALGARY BREWING &amp; MALTING CO. LTD.

There are garden areas in Alberta now producing abundant and profitable crops, which for many years were the scene of devastating droughts that brought loss and hardship to the settlers.

Water has wrought this miracle. Irrigation of the soil has not only given an assured and abundant yield of vegetables, sugar beets, fruits, fodder and other crops—besides raising fine livestock—but has given rise to thriving industries including canning plants and the Southern Alberta sugar industry.

Prosperity is contagious. Not only do these irrigation districts maintain a larger and more prosperous farm population but they have promoted a corresponding increase in the population of the towns that serve them. The benefits of this prosperity extend to transportation and commercial interests, to the municipalities, the province, and the dominion.

If recommendations of the Alberta Post-War Reconstruction Committee on Agriculture for extension of irrigation projects are carried out, the new irrigation areas will provide nearly 10,000 farms that should maintain a prosperous farm population of about 50,000 persons, and increase urban population by possibly 30,000.

This way lie progress and prosperity for our province. With courageous and intelligent development, we can make Alberta a land of greater abundance for all our people.

Annual Meeting**

(Continued from Page One)

Wheatland, they were paying 83.6%  
of the rates. This, it was claimed,  
was more than the landowners could  
long bear, and the provincial & federal  
governments would simply have to  
bear a greater share of the burden. Mr.  
McKinnon rapped the ratepayer for  
his lack of sufficient interest in this  
matter to turn out to the Annual Meet-  
ing of the School Board, if he felt in  
this manner about it.Announcement was then made of  
two committees from the municipal-  
ity who would meet with the School  
Boards at their next Divisional meet-  
ing and discuss mutual problems.  
Committees will be made up as fol-  
lows: to meet with the Bow Valley  
School Division, Councillors McArthur  
and Wheatley, and to meet with  
Wheatland, Councillors Harwood and  
Jackson.Returning Officer Philip Rogers  
announced that he had received one  
fully completed nomination for the of-  
fice of Councillor for Division No. 2  
of this municipality, namely J. M.  
Wheatley of Chancellor and that he  
declared Mr. J. M. Wheatley elected  
by acclamation for a period of three  
years.That he had received one fully com-  
pleted nomination for the office of  
Councillor for Division No. 5 of this  
municipality, namely W. H. Hartell of  
Strathmore and that he declared Mr.  
W. H. Hartell elected by acclamation  
for a period of three years.Following the Financial Statement  
road building and road clearing were  
touched on rather briefly.  
In connection with warble-fly con-  
trol, R. J. Milligan, District Agricultur-  
ist, pointed out that the proposed  
one sprayer for two M. D.'s would not  
prove sufficient, and mentioned the  
advice of Mr. Eaglesham that it would  
not be convenient or desirable to  
make this a control area. He men-  
tioned also that the average flight of the  
fly has been found to be only five mil-  
es, so that it was unlikely that once  
cleared, there would be much danger  
of reinfestation, if proper measures  
were taken. A motion to recommend  
to the council that they buy a sprayer  
for this M. D. was made by Messrs. W.  
Ridson and V. Hansen, and carried.An outline at considerable length of  
the work done by the Council in fol-  
lowing up the various discussions with  
regard to a rural municipalities hos-  
pital in Calgary was given by J. M.  
Wheatley, and following his talk a  
number of questions were directed at  
him. D. McKinnon and V. Hansen  
moved that the meeting go on record  
as being in favour of the committee  
carrying on to the completion of nego-  
tiations. Carried.The question of snow removal was  
renewed and it was suggested from  
the meeting that if snow was pack-  
ed with some machine it would keep  
the road passable. The Council took  
the stand that the snow should be  
pushed off the roads previous to  
spring thaw otherwise the runoff  
would result in deterioration. In the  
meantime a reasonable endeavor  
would be made to keep roads open.In connection with the weed prob-  
lem, it was agreed to refer the matter  
to the Agricultural Service Board  
when they meet.Motion was made by Messrs. M. Van  
der Velde and W. Ridson that the  
contract with the Strathmore Stand-  
ard be continued. Motion carried.  
Mr. R. J. Milligan complimented the  
municipality on their initiative in car-  
rying on this service to the ratepayers.Following a query as to the state of  
Rural Electrification and the effect on  
it of having suggested that the prov-ince take over, a report was made by  
J. M. Wheatley and considerable dis-  
cussion followed as to the merits of  
supporting the power companies or  
having the province take over the  
plan. Moved by Messrs. Corbell and  
Hanson that the Council be authorized  
to take up the matter and inquire in-  
to the various benefits either way.Motion was made by E. Jackson  
that this meeting send a request to  
the provincial government that No. 1  
highway through the Municipality be  
hard-surfaced, and that No. 24 be  
worked on.Mr. J. M. Wheatley, a re-elected  
Councillor assured the gathering that  
he would give his best efforts to his  
division and to the municipality at  
large. He thanked the ratepayers for  
their confidence in him which he did  
not intend to abuse.Motions of thanks were made by M.  
Van der Velde to the Council for their  
work during the past year, and by J.  
M. Wheatley to the chairman and  
secretary of the meeting.

The meeting adjourned at 6:40.

far from satisfactory as the machine

with the experience the Vendor and

there is every reason to expect that  
everything possible will be done to av-

## U.F.A., U.F.W.A MEET

At a joint meeting of the U. F. A. and U. F. W. A. held Tuesday night in Strathmore in the Memorial Hall, much business was discussed. Decision was made to hold another dance and card party in the near future, following the very successful one of two weeks ago.

A resolution was discussed asking that Ducks Unlimited make some re-statement to the farmers who are losing grain to ducks in protected areas. Suggestion was also made that the convention to be held later in the season be held somewhere in this area, instead of in Brooks. It was pointed out that Brooks is not at all Central.

A talk was given by R. J. Milligan on a Junior Potlato Club and continuing into elements of Seed Oats and Barley. Following considerable discussion, it was decided that the group should sponsor a Junior Potlato Club.
